

The Project for Introduction of Clean Energy
by Solar Electricity Generation System (Commissioning Ceremony)

Date : 23rd August, 2016

Venue : Usman Dam Water Treatment Plant, Abuja

Summary : Government of Japan has extended grant assistance worth Nine Hundred and Eighty million Japanese Yen (980,000,000 JPY) (equivalent to approx. 8.72 million USD) to install the photovoltaic (PV) panel which is expected to generate approximately 1,496MWh at the premises of Usman dam water Treatment Plant under Japan' s Cool Earth Partnership Programme, which aims at realizing both reducing global greenhouse gas emission and economic growth so as to address Climate Change. This would result in reduction of 31 million Naira/ year for payment of electricity bill, and 741t/ year of CO₂. In addition, this project is expected to contribute to improve quality of the portable water which Usman dam water Treatment Plant provides to approximately 40,000 residents in FCT.

H. E. Mr. Sadanobu KUSAOKE, the Ambassador of Japan to Nigeria, H. E. Mr. Babatunde Raji Fashola, Minister for Power, Works & Housing, and Dr. Babatope Ajakaiye, Permanent Secretary, FCTA, attended the Commissioning Ceremony. It was widely reported by local media.

Speech by H.E. Mr. Sadanobu Kusaoke
