

Grant Assistance for Grassroots Human Security Project

“Project for Procurement of Medical Equipment for Suleja General Hospital in Suleja Local Government Area in Niger State” (Visit by the Project Representatives)

Project Content: In Suleja General Hospital, there used to be unfortunate cases that some patients could not receive swift and proper medical services due to lack of medical equipment. Given this difficult situation, the Government of Japan has provided USD 103,068 (equivalent to 9,997,596 Japanese yen) to procure 9 kinds of medical equipment, 12 kinds of medical tools and 13 kinds of furniture. From now on, Suleja General Hospital will serve for the needs of the residents in Niger and neighboring states by providing better medical cares.

On 4th February 2016, Mr. Sadanobu Kusaoke, Ambassador of Japan to Nigeria, welcomed Dr. Makuskidi M. Muhammed, Permanent Secretary of the Niger State Ministry of Health , Dr. Adedokun A. Adekunle, Medical Director of Suleja General Hospital, and Mrs. Anna Madziga, the NGO representative who visited the Embassy of Japan to express the appreciation to our assistance. The visit was published on the nationwide newspapers.
