

## As Many As 47,000 Community Residents Can Now Receive Medical Service

14th June 2018

The Embassy of Japan announces that “The Project for Construction of Saburi Primary Health Care Clinic in Abuja Municipal Area Council in the Federal Capital Territory” has been completed and the new constructed healthcare facility was handed over to the Federal Capital Territory Administration at the handover ceremony. The Ambassador of Switzerland was present at the ceremony to hand over a solar-powered borehole which they installed on the premises of the clinic. The Japanese Ambassador Kikuta was interviewed by NTA, AIT and Daily Trust correspondents at the end of the ceremony.

<b>Project Title</b>	The Project for Construction of Saburi Primary Health Care Clinic in Abuja Municipal Area Council in the Federal Capital Territory
