

TICAD Press Tour for Nigerian Media

On 21st March 2019, the Embassy of Japan, in collaboration with JICA Nigeria Office, invited a journalist and a photographer of each of the four leading Nigerian media (namely NTA, AIT, Daily Trust and This Day) and conducted an inspection tour of some FCT project sites of Japan's Official Development Assistance (ODA) and Grant Assistance for Grass-roots Human Security Grant Projects (GGP).

The press tour aimed to bring to the fore Japan's development cooperation, including TICAD, and provide more information about Japan to Nigerian government officials and the Nigerian people.

The press visited the GGP site 'The Project for Procurement of Medical Equipment for Bwari General Hospital in Bwari Area Council in the Federal Capital Territory.' They also inspected ODA sites including Usman Dam for 'The Federal Capital Territory Reduction of Non-Revenue Water Project' and 'The Project for Introduction of Clean Energy by Solar Electricity Generation System,' and Apo power plant for 'The Project for Emergency Improvement of Electricity Supply Facilities in Abuja,'

After the press tour, various projects of Japan's development cooperation in Nigeria were widely broadcasted by the Nigerian media, both in newspapers and on TV. The Embassy of Japan believes that this will allow the Nigerian people to know more about Japan's activities in Nigeria.
