

## Grant Assistance for Grassroots Human Security Project (GGP)

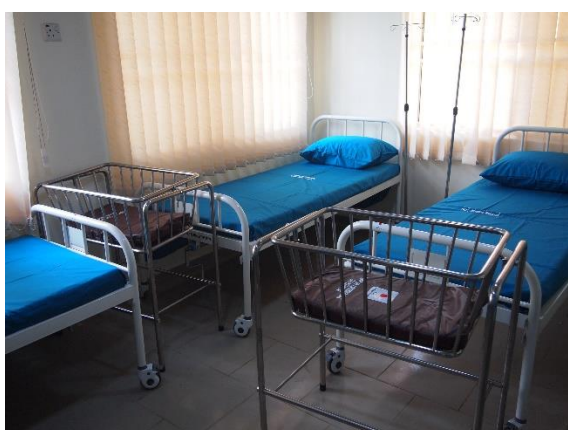

### Japan Granted US\$ 89,106 for Improvement of Primary Healthcare in Alimosho LGA, Lagos state

The Embassy of Japan announces that the “Project for Improvement of Primary Health Care in Alimosho Local Government Area in Lagos State” has been completed and the renovated Primary Healthcare facility, (including new hospital equipment, hospital furniture, a water treatment and solar power system) has been handed over to the Alimosho LGA at a handover ceremony, in the presence of Chargé d’Affaires a.i., Embassy of Japan, H.E. Mr. SHINOZAWA Takayuki and Permanent Secretary, Lagos State Primary Healthcare Board, Dr. Tayo Lawal (represented by Director of Medical Service, Dr. Eniola Erinosh). The ceremony held on 11th December 2019.

The solar power system was manufactured and installed by a Japanese company, 4 Stones Corporation while the mosquito repellent paint used in the renovation works also used technology from a Japanese company, Kansai Plascon, (thereby enabling technology transfer from Japan to Nigeria).

<b>Project Title</b>	Project for Improvement of Primary Health Care in Alimosho Local Government Area in Lagos State
<b>Amount Granted</b>	89,106USD
<b>Implementing Partner</b>	Street to School Initiative
<b>Summary of the Project</b>	The project is aimed at strengthening the capacity of the existing facility by providing much needed equipment and renovation to redress the deteriorated delivery of basic health care services.

The Embassy of Japan hopes that this assistance will contribute to the improvement in the delivery of healthcare services in the community and will further strengthen the amicable relationship between Japan and Nigeria.
