

**【Commissioning and Handover Ceremony of the Combined Harvester and Power Tillers
in Adani, Enugu State】**

On February 5, 2026, Ambassador SUZUKI Hideo attended the commissioning and handover ceremony of the GGP project “The Project for the Provision of Power Tillers and a Combined Harvester in Uzo-Uwani Local Government Area in Enugu State”. The ceremony was also attended by community leaders, representatives of the implementing partner Spiritan Self Awareness Initiative, local farmers, community members, and the press.

In his keynote address, the Ambassador emphasized that the project provided power tillers and a combined harvester to support the local community. By increasing farming efficiency, the project is expected to help community members increase their income and secure sustainable livelihoods. A key highlight of the project is the procurement of the equipment from Yanmar Agri Corporation, a leading Japanese technology company, which also provided training on its operation and maintenance.

Japan hopes that this project will enable community farmers improve their livelihoods, enhance food security, and contribute to Nigeria’s economic long-term growth.
